

School Intervention Program at WVU Medicine Children's

A Proud Partner of

School is an essential part of a child's normal routine. It is important to keep up this routine when a child is in the hospital.

Credit Unions for Kids is a proud supporter of WVU Medicine Children's School Intervention Program. Credit Unions for Kids is a nonprofit collaboration of credit unions, from across the country, engaged in fundraising activities to benefit 170 Children's Miracle Network Hospitals.

THE GOALS OF THE PROGRAM INCLUDE:

- Closely sync the standards being taught in a child's classroom
- Maintain a sense of "normalcy" in each child by providing them educational opportunities and growth
- Create a learning environment within the hospital that simulates a classroom experience
- Reintegration support for children returning to school after a medical diagnosis
- Establish community support and relationships
